

4th Grade Electrical Safety Presentation

Energize your school with Dixie Power's enlightening electrical safety presentation! Their expert-led sessions spark curiosity and empower students with essential safety knowledge, ensuring a safer and more informed school community.

About Dixie Power

Dixie Power is the superhero of electricity, making sure our lights stay on and our homes are powered up with reliable service. They're always there to help, making our community a bright and happy place to live and play! As an electric cooperative, Dixie Power is owned by the people it serves, which means they work together with the community to keep everything running smoothly and ensure everyone benefits.

What to Expect

Dixie Power offers one safety demonstration each year to the 4th grade class at elementary schools located on the Dixie Power system.

- // Hotline Demo and Interactive Presentation.
- // Lasts around 45 Minutes to an hour.
- // Held outside of the school near the school's electrical transformer.

Pick A Date

Get with your 4th grade team and determine a date and time that works best for you.

Send a Request

Submit your requested date and time online at:

www.dixiepower.com/school-presentations/

Request Approved
